

COMMON MCCS AND CCS THAT IMPACT DRG ASSIGNMENT – Coding a diagnosis as secondary means it must qualify as being either present on admission or occurring during admission and requires clinical evaluation, requires therapeutic treatment, diagnostic work-up or increased nursing care/monitoring and/or extended length of stay. **Diagnoses listed in blue are non CCs that have a severity of illness designation of 2 or 3.**

Diagnosis	Default SOI	CC/MCC	Diagnosis	Default SOI	CC/MCC
Acute coronary insufficiency	2	CC	CHF	2	
Acute coronary occlusion	2	CC	CKD, stage 4/5	2	CC
Acute coronary syndrome	2	CC	Cirrhosis of liver	2	
Acute kidney injury	3	CC	COPD, acute exacerbation	2	CC
Acute tubular necrosis	4	MCC	COPD, with acute bronchitis	2	CC
Anemia, acute blood loss	2	CC	COPD (with or without asthma)	2	
Anorexia	2		Cor pulmonale, acute	4	MCC
Aspiration bronchitis	4	MCC	Cor pulmonale, chronic	2	
Atelectasis	1	CC	Coma	3	MCC
Atrial fib, persistent	2	CC	Cystitis	2	
Atrial fib	2		Deep vein thrombosis	3	CC
Anxiety, alcohol induced	1	CC	Delirium, drug induced	2	CC
Bacteremia	3	CC	Dementia w/behav disturb	2	CC
Bipolar disorder (type II) manic/depressed	1	CC	Depression, major/acute	2	CC
Bleeding, GI	2	CC	Mild/moderate/recurrent		
Bleeding, rectal/anal	1	CC	Diab mellitus w/hyperglycemia	2	
Blood in stool	1	CC	DM with renal, neuro, circulatory	2	
BMI <19	1	CC	other manifestations		
BMI >40	2	CC	Diabetes, hyperosmolar w/wo coma	4	MCC
Brain Death	4	MCC	Diabetes, with coma	4	MCC
C. Difficile enteritis	3	CC	Diabetes w/ketoacidosis (I/II)	3	MCC
Cachexia	2	CC	Drug dependence	1	CC
Cardiac arrest (d/c'd alive)	4	MCC	Dysphagia	2	
Cardiomyopathy	2	CC	Eating disorder	2	
Cellulitis	1	CC	Electrolyte/fluid disorder	2	
Cerebral edema	4	MCC	Emaciation due to malnutrition	4	MCC
Cerebral vascular accident (CVA)	4	MCC	Emphysema	2	
Cerebral hemorrhage	4	MCC	Encephalopathy	3	MCC

Questions? Contact the HIM Coding /CDI Department at x3464 or x3875 (Dev. 7/2016)

Diagnosis	Default SOI	CC/MCC	Diagnosis	Default SOI	CC/MCC
Encephalopathy, alcoholic	2	CC	Lymphoma NOS	2	CC
Encephalopathy, hypertensive	3	CC	Malnutrition, moderate unspecified	3	CC
Encephalopathy, metabolic	3	MCC	Malnutrition, mild	2	CC
Encephalopathy, toxic	3	MCC	Malnutrition, severe	4	MCC
Enteritis (E. coli)	2	CC	Morbid obesity	2	
Enteritis, C. diff	3	CC	Multiple sclerosis	2	
Esophageal ulcer w/bleeding	3	MCC	Myocardial infarction, acute	4	MCC
Esophageal ulcer/erosion	2	CC	Myopathy	2	
Esophagitis, Candida	2	CC	Neurogenic bladder	1	CC
ESRD	2	MCC	Neutropenia	3	
Failure to thrive	2		Parkinson's Disease	2	
Gastritis, hemorrhagic	3	MCC	Pancreatitis, chronic	2	CC
Hallucinations	1	CC	Pancreatitis, acute	3	MCC
Head injury	2		Pancytopenia	3	CC
Heart failure: Diastolic	2	CC	Pancytopenia d/t chemo/drugs	3	MCC
Heart failure: Diastolic, acute	3	MCC	Peritoneal abscess	4	MCC
Heart failure: Left	2	CC	Peritonitis	3	MCC
Heart failure: Systolic	2	CC	Pneumonia	3	MCC
Heart failure: Systolic acute	3	MCC	Pneumonia aspiration/bacterial	4	MCC
Heart failure: Acute on chronic systolic/diastolic	3	MCC	Pneumonia, VAP	3	CC
Heart failure: Diastolic/systolic, chronic	2	CC	Pressure ulcer, Stage III	2	MCC
Hematemesis	3	CC	Pressure ulcer, Stage IV	3	MCC
Hemiplegia/Hemiparesis (any or s/p CVA)	2	CC	Pulmonary embolism, chronic	2	CC
Hemoptysis	2	CC	Quadriplegia	3	MCC
Hepatic coma	4	MCC	Respiratory distress, acute	2	CC
Hepatic encephalopathy, acute/subacute	4	MCC	Respiratory failure, acute/unspec	4	MCC
Hepatitis, viral	1	CC	Respiratory failure, chronic	3	CC
HIV disease/AIDS	3	MCC	Schizophrenia, simple, paranoid	2	CC
Hyper/Hypocalcemia	2		Scoliosis	2	
Hyperkalemia	2		Seizure disorder	2	
Hypertatremia	3	CC	Sepsis/SIRS	3	MCC
Hyponatremia	2	CC	Shingles/Herpes Zoster	2	
Hypotension	2		Sickle cell disease	2	
Ileus	2	CC	SIRS, noninfectious	2	CC
Intellectual disability, severe/profound	2	CC	SIRS, noninfectious w/organ dysfunct	4	MCC
Intestinal impaction	2	CC	Suicidal ideation	2	CC
Intestinal obstruction	3	CC	Supraventricular tachycardia	2	CC
Jaundice	2	CC	Syncope	2	
			Thrombocytopenia	2	
			Vitamin deficiency (B, D, K, etc.)	2
